47	VF	Valuair <sup>^</sup>	Singapore	Jetstar	0
		TOTAL			992

Notes:

Based on air operators' certificates and in-service fleet as of Dec. 31, 2013. Affiliation with LCC groups listed where applicable. Affiliation with FSC groups listed in parenthesis only for carriers that are not affiliated with an LCC group.

\*Spring, AirAsia X, Nok and VietJet currently only have one carrier but are planning second affiliates in 2014.

<sup>^</sup>Valuair continues to operate as a Jetstar Asia subsidiary using its own AOC on routes between Singapore and Indonesia, but in 2013 Valuair returned the remaining aircraft that were under its AOC and now shares some of the 19 A320s operated by Jetstar Asia.

\*\*Nok Air figures include five Saab 340s that are wet-leased from a regional carrier.

<sup>^^</sup>Lion Air figure excludes five 737-400s which the carrier lists as active, claiming they are only temporarily out of service. But as the aircraft have not flown for several months the CAPA Fleet Database lists them as in storage.
